

User Stories - Sweet Bliss Cakes Website

As a visitor, I want:

1. to quickly understand what the website offers when I land on the homepage.
2. to browse different categories of cakes (e.g., birthday cakes, bento cakes, wedding cakes).
3. to view a list of cakes with pictures, descriptions, and prices.
4. to view the details of a single cake on a product page.
5. to see reassuring information like delivery options, payment security, and contact info in the footer.
6. to access links to social media to follow the bakery.

As a user who does not have an account, I want:

7. to see a Sign Up option in the navigation so I can create an account.
8. to be redirected to the login page if I try to order without being logged in.
9. to be able to register with basic info (email, password, etc.) even if its just a placeholder on the static site.

As a logged-in user, I want:

10. to add cakes to my cart from the product listing or product page.
11. to view and modify the content of my cart before placing an order.
12. to see a summary of my order before validating.
13. to access my account from the navigation bar to view past orders (future functionality).
